For architecture and woodworking

PROKON series can solve the problems with which craftspeople are in trouble!

■ "KADOGIWA" Corner Bit for Bracing

⊙3

REPLACEMENT CORNER BIT

Features: Bobbing head type which is useful for installing the antiseismic reinforcement metal fittings which have been difficult to install until now. You can use the electric impact driver for screws at the corner difficult to drive in, because the top of the bit inclines at 6 degrees. Strong neodyum magnet is integrated so as to fix the fittings in a right position.

Application: Holddown, bracing, and fixing for various antiseismic metal fittings

Bit can be replaced. While pulling the sleeve and lightly moving the bit, draw it out.

■ Double-Ended "SAKISUBO" Bit

⊕2

Features: New solution for carpenters. The cushion effect at the constricted part absorbs the impact of the electric impact drivers to let screws smoothly drive in. Accordingly, the bit is more durable. Strongly magnetized.

Application: Joist fixing, stage construction, concrete panel and fixing the sash frame.

Durability improved by 20%
(compared to our standard product)

Testament to quality - VESSEL & Silver line. With indication of the size.

Constricted part absorbs the impact of the electric impact driver. You can tighten without bend like the torsion bit.

Edge has a powerful magnet.

Features: Two popular sizes for usual working have been incorporated in one bit. Strongly magnetized.

Application: Positive (⊕) & Square (SQ) compounds +2, which can widely be used for architectural woodworking, with SQ3 for the antiseismic metal fitting. Posidriv bit is also popular for furniture assembling. In Japan, VESSEL is a qualified licensee.

"BARITORI" Full Thread Burring Bit

Φ8~12mm
For full thread (iron) M8, 3/8, M10, M12

Features: With impact wrench, you can easily burr the full thread studs for which the grinder was used. The issue "Nut cannot be inserted into ..." on site has been solved! This is essential for craftspeople who handle the full thread studs. Excellent durability

Application: Essential product for hanging bolts and installing air conditioning equipment. Suitable for the terminal treatment of anchor bolts.
