## STRONG MAGNET CATCHER

No.SMBC-1PR (Red) , No.SMBC-1PB (Blue)

## STRONG MAGNET CATCHER W/BIT

No.SMBC142065 (Red)

**Firmly catches a screw, even long!**

# Strong Magnet Catcher

## Super Slim & Light-weight

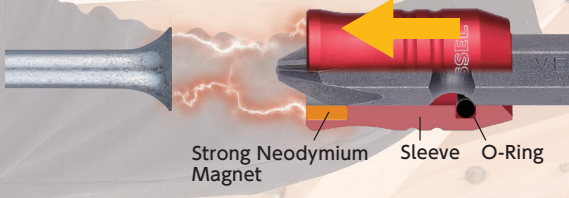

Outer Dia.  $\phi$ 12mm

3.8g

**Firmly catches a screw even in an unstable place**

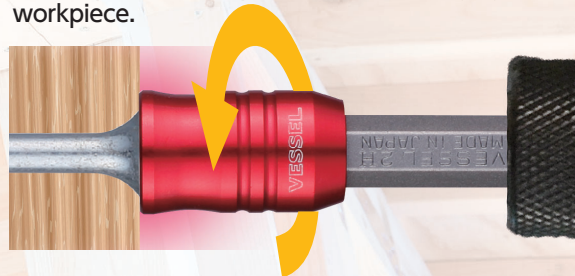

### Point 1

The sleeve slides automatically when the screw gets close to the SMBC Magnet Screw Catcher.

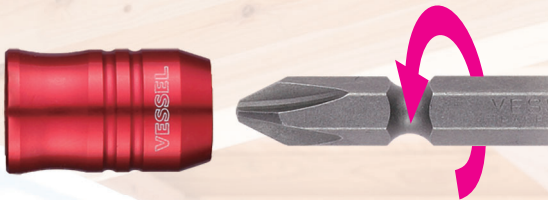

### Point 2

The slipping function of the sleeve when the screw seated prevents the product from damaging the workpiece.

### Point 3

Easy attachment by inserting the bit while turning. And detach the bit by pulling it out while turning.

### Applicable Screws

The screws with the screw head diameter 7mm or more can be firmly caught.

- \* If the screw head diameter is less than 7mm (=Inner diameter of the product), the screw is not properly caught by the magnet ring of the product but by the bit which is magnetized.
- \* Make sure that the screws are firmly engaged with the bit before using.

## No screw tipping!

**Bit accompanied model also available.**

1 PIECE For Double Ended Bit

3.8g

6.35mm

13 (mm)  
Not suitable for a round shape bit.

**Strong neodymium magnets prevent screws from tipping over.**

## Strong magnet catches screws.

Attaching the NMC to a bit make its retaining strength about 20 times more than normal magnetized bits.

Approx. **20** times stronger  
**0.318kgf**

### ⚠ Cautions

● Confirm the way of use, appropriate applications, and size before use. ● Do not use this product near devices vulnerable to magnet. ● Keep this product away from children when storing at home.
