NEW MEGADORA IMPACTA

PAT.

Revolutionary

Tang-thru screwdriver with built-in
impact driven screw removal function

✓ "Stripped screws"

✓ "Rusted screws"

✓ "Stuck screws"

Only **IMPACTA** can do!

Impact Force
into Rotation

Even if the screw
head is stripped,

"IMPACTA"
can remove it
instantly!!

MADE IN JAPAN

Hit IMPACTA with a hammer to loosen the stuck screw!!

Cam rotation mechanism

Our proprietary Tang-Thru nut incorporates cam rotation mechanism, which turns the driving tip counter-clockwise by 12 degrees when the handle is hit with a hammer. IMPACTA leverages impact acceleration to remove stuck screws.

Slip-proof handle!!

Non-Slip

Non-slip surface secures a firm grip even when your hands are covered with oil.

When used with oil-covered hands, tightening torque becomes 26% higher with "MEGADORA IMPACTA" than with other normal screwdrivers. Non-slip surface makes the difference.

Forced into the screw head by a hammer blow.

⊕2×100mm 140g
Light-weight

Loosened by 12°

No.980 MEGADORA IMPACTA

Do not use this product to remove screws on materials that could be damaged or distorted, such as aluminum and thin sheet metal.

Choose a right screwdriver for right screw. The wrong size screwdriver can damage the screw hole.
